Vidyaloka College, Galle, Sri Lanka

G.C.E (A/L) Examination – 2019 | Physical Science Stream | Grades: **3S** | Index No: 7798768

Upananda College, Galle, Sri Lanka

G.C.E (O/L) Examination – 2015 | Index No: 51467852

Grades: **3A** - Mathematics, English (Index No: 31139205), Buddhism

5B - Science, ICT, Commerce, Art, Sinhala | **C** - History

SKILLS & TOOLS

Programming Languages: JavaScript, Python, Java

Web Development: HTML, CSS, Bootstrap, Tailwind CSS, React JS, Node.JS

Database Management: SQL, MySQL

Mobile App Development: React Native, Flutter

Tools: Git, VS Code, Figma, Balsamiq, WordPress, Webflow, Canva, Adobe Photoshop, MS Office

RELEVANT PROJECTS

Pixplore 🖥️ [DEMO](#)

Developed a modern image search tool using React and Tailwind CSS. Integrated the Unsplash API for fetching visuals based on keywords, featuring a responsive design for an interactive user experience.

Winner Selector 🖥️ [DEMO](#)

Developed a dynamic tool using React to randomly select winners from a participant list. Implemented features like shuffling, resetting, and customizable winner selection, delivering a seamless and interactive experience for contests and giveaways.

Snake Game 🖥️ [DEMO](#)

Developed a classic Snake game using HTML, CSS, and JavaScript. Implemented game logic for snake movement, food generation, and collision detection. Showcased problem-solving skills by addressing challenges in-game mechanics and responsiveness.

Quiz App 🖥️ [DEMO](#)

Developed a dynamic Quiz Application or Quiz website using HTML, CSS, and JavaScript. Multiple questions with four answer choices each. Real-time feedback on correct and incorrect answers. Displays the final quiz score upon completion.

Light/Dark Mode Switching Website 🖥️ [DEMO](#)

Developed a website with dynamic Light/Dark mode switching using HTML, CSS, and JavaScript. Utilized CSS variables, the theme color can be changed from one central location. Implemented an interactive icon that transforms from a moon to a sun during mode switching.

Text To Speech Converter [DEMO](#)

Transform text into speech with this Text to Speech Converter Application developed using HTML, CSS, and JavaScript. Included the feature to change the voice, allowing users to generate speech in different voices.

Weather App [DEMO](#)

Developed a real-time Weather Application using HTML, CSS, and JavaScript. Integrated the OpenWeatherMap API to fetch accurate and up-to-date weather data. Implemented a user-friendly interface allowing users to input a city name and retrieve detailed weather information.

Capstone Project

Developed a web-based information management system for a school. Used Angular for the frontend, Node.js and Express for the backend, and SQLite for the database. The last assignment of the Trainee Full-Stack Developer Programme offered by the University of Moratuwa.
